

Department of Master of Computer Applications IoT in Rural Schools

Department of Master of Computer Applications GL Bajaj Institute of Technology and Management, Greater Noida, in collaboration with IEEE, Kick off the Journey of enabling the students to the IoT. The aim to start this journey is to share the IoT Technology knowledge to the budding technocrats and Trainers/teachers to the nearby Govt. Primary/Junior/Senior schools where students have limited exposure/resources to explore the emerging technology interventions and innovative projects done by our future professionals.

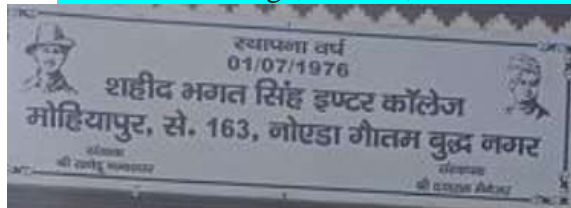

With this thought the team of 23 students with 8 faculty members visited the Govt. Primary and Secondary schools of Gautam Budh Nagar. There, team spread awareness of IoT in various applications and also demonstrate the projects made by them on IoT.

Team visited the following Schools

1. .Kanya Uchhtar Madhyamik Vihdyalaya, Kherli Hafizpur, U.P

2. Patel Inter College, Astauli, Gautam Budh Nagar.
